

Dr. Ajay Kumar Singh as I know him Trip of a Lifetime

I had the opportunity to present a paper at First International Conference on Social Sciences organized by Dokuz Eylul University in IZMIR (Turkey) from 21 to 24th of August 2008. Since I didn't have any such experience, I had several doubts in my mind. This was my first visit abroad that too without my family members. But I was accompanied by Dr. Ajay Kr. Singh, Associate Professor, Department of Commerce, Delhi School of Economics, University of Delhi, Delhi – 110007. Dr. Amitabh Gupta, Associate Professor, Department of Financial Studies, University of Delhi South Campus, New Delhi and Dr. Rabi Narayan Kar, Associate Professor, Shaheed Bhagat Singh college, University of Delhi. But anyway, I was able to complete the task successfully and really happy about that amazing experience.

On 19th afternoon we landed at Turkey airport. From there we boarded a local flight to Izmir to attend the conference. Upon arrival at Izmir airport, University Teachers greeted us and we had a car ride to University hostel. The weather was very hot. We got settled in allocated separate rooms of the hostel. We

decided to explore nearby places of Izmir after having 1-hour rest. The room that was allocated to me was beautifully designed to give maximum comfort but provided with 9 inches high bunker bed to sleep. Sometimes, the world becomes your classroom, and experiences your greatest teacher. I went into my room and as was very tired went up the bunker bed to sleep. After an hour the door bell and the intercom phone rang almost simultaneously. I got awoken up and tried to come down from the bunker bed. I was feeling bit drowsy and was in a hurry to pick the phone. Immediately, my hand got slipped and I almost lost my control and fell down from the first step itself. I was lying on the floor my both elbows were strongly hurt rather broken. It was paining like anything. I was not able to move my both elbows. I was totally shocked, upset and could not understand what will happen next as I was on a totally new land far away from my near and dear ones. When I opened the door it was Dr. Rabi. As I was almost crying, he asked what has happened. I explained him how I fell from the steps of bunker bed. He immediately took me to Dr. Ajay Kr. Singh and Dr. Amitabh's room. Dr. Ajay told me to get relaxed and forget all the pains. But, I was expecting that he would offer me some medicine. Suddenly, he started healing and blessing my elbow from his hand using energy healing system. After that he took out

an instrument. For a while, I could not understand what is he trying to do? Then he explained that this is the divine instrument which connects with the energy body and this instrument would heal all the pain of my both elbows as a supplementary tool of energy healing. I was a bit amused to hear this. He started moving that instrument around my both elbows and surprisingly, it worked. He asked few questions from that divine instrument whether it is a fracture and that antennae responded negatively. Then he wrote my name on a healing sheet and put that divine instrument on my name written on that healing sheet. He told me that this divine instrument is going to heal you very soon. But I was a bit skeptical about it. He advised me to make a move to explore Izmir. Everybody around advised him to take me to some Physician but he emphasized on nothing wrong would happen with me as he had a diagnosis done with that divine instrument. As our afternoon became evening, we quickly made our way in a car to visit the incredible Izmir. Even, I was not able to open car doors. Dr. Ajay was healing me using energy healing. Gradually, I realized my pain was reducing and after almost two hours, I was relaxed. After having sight seeing in Izmir, we had a wonderful dinner with the Conference Convener. Finally, we came back to hostel for sleep. For the entire duration, the divine instrument was working for me till morning. When I

got up, I enjoyed a relaxing morning, sleeping in and gorging on yet another breakfast buffet. **There are hundreds of ways to kneel and kiss the ground,”** meaning that there are many different ways to appreciate life. I had the same feeling that morning.

Few words may not express the gratitude for a Spiritual Transformation Guru, Dr. Ajay Kr. Singh and his spiritual powers. His powers are unimaginable. Only those who have experienced will be able to actualize. This is my first spiritual experience with enlightened Dr. Ajay Kr. Singh. His presence awakened my sleeping soul. Thank you endlessly for being the sacred vessel to absorb all my pains.

On 24th we explored the local markets on the street for any last minute souvenirs from Istanbul. Now, looking back on everything that I got to see and experience, it has been more than unbelievable...it has been the trip of a lifetime!
I did not pay any fees for this.
