

Dr. Ajay Kumar Singh as I know him.

V. K. Arora

Dr. Ajay Kumar Singh left an indelible impression on my mind in the very first meeting. His very presence filled the room with indescribable tranquility which had something divine about it.

Dr. Singh has a metallic instrument which has the magical power to predict the future events. At one stage my daughter was doing her BBM from Garden City College, Bangalore. She had three options for her PG in mind – Mass Communication, M.Com and M.A. (English) in that order. I asked Dr. Singh what she would be doing. With the help of the instrument, he said – M.A. (English). Frankly speaking, I did not believe it at that point in time as this was the last option in the child's mind. The weeks and months that followed saw the change and behold, after a few months, she declared her intention to do her M.A. (English) and she has applied for admission to the only course – M.A. (English), which speaks of the magical power of the instrument and Dr. Ajay Kumar Singh.

I always look forward to meeting Dr. Singh, as his presence has a soothing effect on my very being and this is a unique experience difficult to capture in words.
