

## **EXPERIENCE OF MIRACLE**

### **That is Power of healing.....!!**

I was perfectly ok till late night on 24<sup>th</sup> November 2008. When I got up next morning (i.e. Tuesday) I felt that something going wrong with my left eye. I was unable to close my eye and realized that something (dust/eyelash) is inside because of which I was unable to close my eye. I thought of washing my eye with water and I did that but there was no relief. I saw my eye in the mirror and saw that white left part of my left eye was just coming out I was scared that whether my eye will exist or not and just because of that thought I was about to faint. Any how I controlled myself and I tried to talk Dr. Mukul Singh but I couldn't reach her as she left her cell at her home and her husband Dr. Ajay Kumar Singh picked up the phone and I discussed my problem with him. He just said be on hold I am doing something for you. Immediately I realized that watering of my eye stopped. I couldn't make it how it suddenly stopped watering and the condition of my eye started improving due to something called healing as said by Dr Ajay Kumar Singh. He told me that you don't require to move to a Doctor and not even required to take any medicine and you will be perfectly ok within 3-4 hours. I went to my office and as usual I worked there. Gradually, after every moment I was feeling relaxed and condition of my eye was improving. After 3 hours I

realized that I was able to close my eye properly, and again I went to the mirror and saw that my eye was looking normal and it was like a miracle to me that happened. I was very excited about the power of healing and I was very thankful to Dr Ajay Kumar Singh for providing me his treatment on phone then I messaged him and I expressed my heart felt thanks to him. In the evening I got a confirmation call from him about my well being. I told that my eye is ok but still there is some pain in my eyelid he said you should take proper sleep today and tomorrow morning you will be perfectly fine it happened and I was perfectly ok next day.

I can't exactly express my feeling in words because that is very few. I would like to say only that **YES, POWER OF HEALING EXISTS.**

I did not pay any fees for this.
