

A letter of Thanks & Gratitude

**"I would like to say a big thank you to Dr. A.K.Singh for helping both myself and my Husband.** What I witnessed was something which rarely educated people believe in. I was suffering from little bit of pain in my neck from the time I woke up. But by late morning this pain was acute and I was not able to move my neck. I was assigned the duty of invigilation and I thought that I will manage it but within 10 to 15 minutes the neck pain was unbearable and I was on the verge of tears. At that point of time I went to the cabin of Dr. A.K. Singh for some urgent work and he was taking interview of student for Admission. He asked me to sit down & through my facial expressions understood that something is wrong and enquired & I told him my problem. He asked me to relax and he started healing during the interview session itself. To my amazement I was getting well slowly and gradually and within a span of 20 to 25 minutes I was 95% relieved from the terrible pain and only 5% of the pain was there in my neck, that too was felt when I was shaking my neck. He instructed me to continue my work and gave an assurance that the remaining pain will be fine after some time. When I came back to the invigilation room, and my colleague could also feel from my face that I am perfectly alright. But after some time the pain recuperated and to this Mr. A.K.Singh told me that it may be due to the negative energies in the room you are witnessing so. He wrote my name on a paper and placed the magical device on it and said that I am healing you and you will be fine by morning. The next morning I woke up and I was perfectly hail and hearty to my astonishment. **I couldn't explain how but the pain had been erased. This probably is not the best description but it is something which, unless you have experienced it, is impossible to explain.**

It is very difficult and impossible to express & extend my heartfelt gratitude to Dr. A.K.Singh in words not only for sparing his precious time to heal me but also to guide me in taking decisions when I was indifferent between different options available. *He is a gifted creator, healer who listens and then delivers beyond what one might believe possible. I am forever grateful to him."*
